

THE STATCREW SYSTEM For Basketball - What's New 2000-2011 - Page 1

What's New For 2011:

Version 4.13.0 (available June 2011)

- Access to all updates from June 2011 through May 2012 (i.e., versions 4.13.1 - 4.13.xx)
- Live XML activation through July 2012

Version 4.12.1 - 4.12.17 (updates made from June 2010 - May 2011)

- Add Support for entry of career-totals-only statistics (career totals for a player, without season-by-season stats for that era). To use this:
 1. Select Edit | Add new season
 2. Add a season for the last year of the player(s)
 3. Select Edit | Edit season data
 4. Check the "Contains career totals only" option
 5. Click the "Individual stats" button
 6. In the "Full roster" list click <New player>
 7. Enter the career totals for a player who last played in that year
 8. Repeat for other players as necessary
 9. Stats entered will be marked as "Contains career totals only", will be considered for individual career records, not individual season records.
- Correct display of "Other Metrics" report when "style" mode is disabled, correct typo of "EFG" on report
- Honor the Records report settings | # entries for Career stats to allow for expanding the Indiv year-by-year leaders
- Fix to tab-stop output for career individual single-game highs
- Add option to force page break for each player -- Individual game-by-game (hardcopy 'style' mode)
- Add fg pct, ft pct and 3fg pct to game xml for team totals
- Improve font handling for headings in Individual Game-by-Game "style" hardcopy report
- Display "Minutes" category in mixed case to match other categories in Individual superlatives Season report
- Display 2nd half-only statistics in 2nd Half Box section of game HTML (instead of cumulative thru 2nd half)
- Include subs and specialty stats in "style" game Html output
- Fix to previous update to accommodate Internet Explorer display issue for HTML play-by-play
- Improve NCAA team code lookup function
- Include specialty stats in table-style output (if enabled)
- Adjust spacing on Results report , pagination on P-R-A report to accommodate larger number of games and notes

What's New 2000-2010:

2010 (Version 4.12)

- Access to all updates from June 2010 through May 2011
- Live XML activation through July 2011
- New Career Single Game High's Report
- Career Single Game High's included in Career Summaries for individual players, both hardcopy and HTML format
- Career All-time Results and All-time vs. Opponents included in the HTML
- In Career reports, show season summary in Html, add national rankings in results, add option for "All years" in Html.
- Improve name sort for 3-part names like "Kevin D. Cox" and "T.J. Rogers"

THE STATCREW SYSTEM For Basketball - What's New 2000-2011 - Page 2

- Allow maximum 6-characters for team code in Game Reports | Xml output parameters
- Add "Show list of NCAA team codes" to Game Reports | Xml output parameters -- to display list of NCAA team codes
- For game Xml, add tag to hold 1st half and 2nd half statistics for individual players (Gameviewer now supports this)
- New Metric Report to display various "statistical metrics" for the team and individuals
- Add def/off rebounds to single-season and career records reports, and filter for "Team" player in career reports
- Add "All players" option to Special | Individual Game Highs report
- For in-game scoring, output substitution info without waiting on next play ('style' output, live xml)
- Use neutralgame="H" in game Xml to treat as home game for visitor and vice versa (for NCAA tournament reporting)
- Save separate titles for men's, women's, venues in Career Reports
- Accommodate display in career/historical reports for results when W-L-T is known, but final score is unknown; in own-score/opp-score fields enter "99-0" for a win, "0-99" for a loss, and "99-99" for a tie

2009 (Version 4.11)

- Access to all updates from June 2009 through May 2010
- Live XML activation through July 2010
- Add handling of more than 5 OT periods in conference reports
- Add print all box scores function
- Add controls for text color of teamID's and "Prd" in scoreboard area of Live HTML
- Add in-game scoring code ("W") for defensive points (wrong basket)
- Add Double-Doubles report
