

The Automated ScoreBook For Lacrosse - What's New 2003-2011 – Page 1

What's New For 2011:

Version 1.13.0 (available June 2011)

- Access to all updates from June 2011 through May 2012 (i.e., versions 1.13.1 - 1.13.xx)
- Live XML activation through July 2012

Version 1.12.1 - 1.12.08 (updates made from June 2010 - May 2011)

- Add Support for entry of career-totals-only statistics (career totals for a player, without season-by-season stats for that era). To use this:
 1. Select Edit | Add new season
 2. Add a season for the last year of the player(s)
 3. Select Edit | Edit season data
 4. Check the "Contains career totals only" option
 5. Click the "Individual stats" button
 6. In the "Full roster" list click <New player>
 7. Enter the career totals for a player who last played in that year
 8. Repeat for other players as necessary
 9. Stats entered will be marked as "Contains career totals only", will be considered for individual career records, not individual season records.
- Fix to tab-stop output for career individual single-game highs
- Add option to force page break for each player -- Individual game-by-game (hardcopy 'style' mode)
- Improve NCAA team code lookup function
- Add team total ground balls, caused turnovers to short box score
- Adjust column layout for individual game-by-game report to avoid truncation on right (style mode)
- In Conference reports, fix to Individual Highs Report (caused turnovers category), and Individual Leaders report to accommodate number of entries for GB, CT and DC categories, and fix to Html Indiv game-by-game pages.

What's New 2003-2010:

2010 (version 1.12.0)

- Access to all updates from June 2010 through May 2011 (i.e., versions 1.12.1 - 1.12.xx)
- Live XML activation through July 2011
- New Career Single Game High's Report
- Career Single Game High's included in Career Summaries for individual players, both hardcopy and HTML format
- Career All-time Results and All-time vs. Opponents included in the HTML
- In Career reports, show season summary Html in browser
- Add national rankings in Career results
- Add option for "All years" in Career Summaries Html
- Add "Minutes" to Edit season data (offensive stats), show minutes played in Individual Career Summaries
- Improve name sort for 3-part names like "Kevin D. Cox" and "T.J. Rogers"
- Allow maximum 6-characters for team code in Game Reports | Xml output parameters
- Add "Show list of NCAA team codes" to Game Reports | Xml output parameters -- to display list of NCAA codes
- Improve filter for "Team" player in career reports
- Accommodate display in career/historical reports for results when W-L-T is known, but final score is unknown
- Add "teamid.CAP" output to Cumes | Capture season stats function, to support in-game season-to-date goals input
- Add Settings | Report options | GWG option to control display of GWG in reports

The Automated ScoreBook For Lacrosse - What's New 2003-2011 – Page 2

- Add Settings | Reports options | Individual stats on 1-page option for printed box score ('style' mode) -- so box score prints on 3 pages instead of 4
- Add "All players" option to Special | Individual Game Highs report selection
- Add "teamid.CAP" output to Cumes | Capture season stats function, to support in-game season-to-date goals input
- In Game Xml, add "shutout" and "sf" (shots faced) attributes to <goalie> tag, and "stadium" attribute to <venue> tag
- Add "foul" attribute to <penalty> tag
- In Career reports, enforce minutes played for goalies in stats leaders report
- Suppress shots/shots on goal data columns if these statistics were not tracked in Career stats
- Save separate titles for men's, women's venues in Career Reports
- Add option to show games started in Career Reports

2009 (Version 1.11)

- Access to all updates from June 2009 through May 2010
- Live XML activation through July 2010
- New Game Viewer access to career statistics (uses Career XML Summaries by player)
- New feature to Show/Flag/Hide inactive players
- Add controls for text color of teamID's and "Prd" in scoreboard area of Live HTML
- Add defensive saves statistic to in-game and manual scoring
- Add option to show defensive saves in Game and Season reports
- Change prompt for penalty types to technical, personal, 1.5- 2- and 3-minute penalties
- Add print all box scores function
- Format faceoff as "won-attempts" (instead of "won-loss") in Game reports
- Display goalies in order of appearance in boxscore (when team uses more than 2 goalies)
- Show opponent rank in Combined Stats report
- Combine multiple players on single page for Individual Game-by-Game report
- For Combined Stats report and Results report, format W-L-T as "#-#" if no ties
- Add support for schedule legend in Career All-time Results reports
- Expand ties for team and individual season and career records in Career reports
- Improve sort for Career reports season statistics summary (sort on points)
- Add Career reports XML summaries (by season) for archive purposes
- Add controls for Career HTML column header color
- Accommodate career historical data where games played information was not tracked
- Add "All" line to Individual Career Summary for "prior team" stats totals
- Add controls for Conference HTML column header color
- Show W-L instead of W-L-T in Conference Standings report
- Html output: Add handling for "special" characters in player names

2008 (Version 1.10)

- Access to all updates from June 2008 through May 2009
- Live XML activation through July 2009
- New style format season reports
- New style format career/historical reports
- Table-style format career HTML output
- Automatically prompt dc or gb after faceoff
- Improve directory prompts for: import/export, pack/unpack, copy html to disk, backup/restore
- Capability to insert graphic images into the header area of hardcopy "style" reports
- Roster report added to "Season Reports" (features include sort by uni # or name, 'style' format and XML format)
- Manual entry: fix to avoid setting games played to "1" when editing a season-to-date "game" file
- HTML generate: accommodate Vista to display HTML | View HTML functions

The Automated ScoreBook For Lacrosse - What's New 2003-2011 – Page 3

- Utilities: modify method for import roster to accommodate Vista (fix to avoid failure in copy of ".cro" file)
- Manual entry: automatically sort the Goal history list in chronological order after edit
- Roster size: increase roster size from 50 to 75 players
- Live HTML: Optionally display game info within sponsor text -- (add a line in the sponsor text file with the tag: <info/>)

2007 (Version 1.9)

- Access to all updates from June 2007 through May 2008 (i.e., versions 1.9.1 - 1.9.xx)
- Live XML activation through July 2008
- New style game reports
- Game Viewer - allow for "http" access to game, season, and career XML files via the internet
- Use player uniform number in season HTML files/links for individual game-by-game outputs to allow for more predictable file names (for example, to create links from player bio pages)
- Remember separate rules for each directory (to simplify switching between mens and womens formats)
- Add a separate field in Rules setup to specify the number of overtime minutes for overtime periods
- Add saves by period to goalie stats in "table-style" Html if that option is enabled
- Option to mark stats for a player from another team/school (to exclude from season & career leaders)
- Install updated NCAA team code list (ncaacode.rpi)
- Game Viewer - implement method to automatically resize viewer window at startup

2006 (Version 1.8)

- Access to all updates from June 2006 through May 2007
- Live XML activation through July 2007
- New stylesheet format for live HTML stats with TAS Live
- Career summary all-time, single-season rankings
- Career all-time records vs opponents
- Roster name format functions (upper,mixed,first,last)
- Import games list sort by date
- Career category ordinal rankings (1., 2., etc.)
- Prompt team name spelling on roster import
- Option to "hide" opponent season totals
- Add faceoff information to Combined Statistics report
- Career categories for save pct, games played, games started, minutes played

2005 (Version 1.7)

- Access to all updates from June 2005 through May 2006
- Live XML activation through July 2006
- Career reports: game results are now included in the Season | Summary report and Summary HTML outputs
- Career reports: new "All-time results" report shows game results for each season
- Career reports: new "All-time vs team" report shows game results against a selected opponent
- Career reports: career capture automatically extracts game results; edit function to enter results for prior seasons
- Easier setup for transmit of report files to Sports Systems
- Game reports: use full team name instead of team ID in short box score report
- Game reports: show line for "TM" in box score if any stats allocated to uniform number "TM"
- Add running home-visitor score to the scoring summary in the box score
- Prompt for rules settings when starting in-game or manual scoring (to verify correct mens/womens rules are in effect)
- Deliver a default value of "180" seconds instead of "90" seconds for the Game setup | Rules | Penalties | Match field
- In-game: allow for multiple EMO/PP opportunities to be associated with a penalty by using a result code of "2", "3" ... or "9" -- in addition to the standard result code of "Y" to indicate a single EMO/PP opportunity is present

The Automated ScoreBook For Lacrosse - What's New 2003-2011 – Page 4

- Tweak the statistics area for in-game scoring to show various team totals in the summary area depending on options
- Only allow for one assist in-game scoring and manual game entry (unless in NLL or MLL 2-point mode)
- Game reports: add indication in play-by-play of "failed" clear attempt
- Game reports: add option whether to display goalie saves by period in box score
- Game reports: show starters in order entered on Game starters window instead of uniform number order
- Improve layout of HTML statistics home page
- Game HTML: use table format for game box scores
- Season HTML: added Settings | Report options | Use table format option
- Season reports: add free position made-attempts line to the Team Stats report
- Season reports: add draw controls to individual game highs report
- Season reports: add Cumes | Capture season stats for season-to-date reporting to conference office (optional); this function creates files in a "SEASON" subdirectory
- Include latest version of NCAA team code list (to support Edit RPI codes function)
- Implement season-to-date capability for team reporting
- Enable the Settings | Report options | Season-to-date mode option for collecting season-to-date files from member teams, rather than game-by-game reporting

2004 (Version 1.6)

- All maintenance updates from June 2004 through May 2005
- Live XML activation through July 2005
- New conduct reports
- New Control Panel feature to access software downloads online
- Season reports - Add <All players> option for generating Individual game-by-game
- Career stats - Improve format for Edit season | Summary report
- Career stats - Add function to generate season summary HTML file for a historical season (Edit season | HTML summary)
- Extend XML activation for 'Copy to file' function to support Game Viewers
- Add tab stops feature for Season Reports
- Change message prompt for penalty input to include a note showing that "2" is a valid result code (indicating a penalty caused 2 power play opportunities)
- Add functions to track red/yellow card stats (womens venue)
- Add Season reports | Special | Conduct fouls report for NCAA conduct fouls study
- Game Viewer: Improve the resizing method used for enlarge/shrink window (+/-) functions; in particular for the play-by-play view

2003 (Version 1.5)

- Add breakouts for conference-only career statistics
- Add breakouts for career statistics vs specific opponents
- Add individual game-by-game statistics to html output
- Add LC Game Viewer feature
- Add file transmit function for FTP to a report server
- Implement game scoring changes for National Lacrosse League (NLL)
- Html "preview" function
- Alerts for possible data discrepancies for NCAA reporting
- Improved NCAA team code lookup functions
