

What's New For 2011:

Version 1.13.0 (available June 2011)

- Access to all updates from June 2011 through May 2012 (i.e., versions 1.13.1 - 1.13.xx)
- Live XML activation through July 2012

Version 1.12.1 - 1.12.22 (updates made from June 2010 - May 2011)

- Adjust font for date in Game Results to accommodate Verdana font
- Display shot totals in career summaries even when one of players years had 0 shots
- Show "Saves" for goalies in Special | Individual game highs report
- Accommodate shared shutouts in season and career individual highs for goalies
- Show shared shutouts regardless of current season "show" option.
- Add Goalie GP in Career Summary report, add Goalie Min, GP and GS to Season records, Career records reports
- Fix to correct heading for 2nd page of 2nd period in "style" play-by-play
- Add Support for entry of career-totals-only statistics (career totals for a player, without season-by-season stats for that era). To use this:
 1. Select Edit | Add new season
 2. Add a season for the last year of the player(s)
 3. Select Edit | Edit season data
 4. Check the "Contains career totals only" option
 5. Click the "Individual stats" button
 6. In the "Full roster" list click <New player>
 7. Enter the career totals for a player who last played in that year
 8. Repeat for other players as necessary
 9. Stats entered will be marked as "Contains career totals only", will be considered for individual career records, not individual season records.
- Fix to tab-stop output for career individual single-game highs
- Add "OT" indicator to game results on home page of HTML output (teamstat.htm)
- Show team fouls by period in box score (if enabled)
- Fix to mislabel "Goalie" GP, GS, MP categories for field players in records section of Individual career summary report.
- For the shootout period, show number="SO" in the tag of game Xml.
- Add option to force page break for each player -- Individual game-by-game (hardcopy 'style' mode)
- Remove display of "-" for shots, SOG from individual career summary report
- Add goalie to Game wrapup | Goalie decisions even if 00:00 minutes played (goalie only appeared in shootout)
- Improve NCAA team code lookup function, and update NCAA team codes, for Xml reporting
- For Conference reports, remove ties in Standings report (hardcopy 'style' format and html 'style' formats)

What's New 2000-2010:

2010 (Version 1.12.0)

- Access to all updates from June 2010 through May 2011 (i.e., versions 1.12.1 - 1.12.xx)
- Live XML activation through July 2011
- New Career Single Game High's Report
- Career Single Game High's included in Career Summaries for individual players, both hardcopy and HTML format
- Career All-time Results and All-time vs. Opponents included in the HTML
- In Career reports, show season summary Html in browser
- Add national rankings in Career results
- Add option for "All years" in Career Summaries Html

The Automated ScoreBook For Soccer/Field Hockey - What's New 2000-2011 – Page 2

- Add "Minutes" to Edit season data for Career reports, show minutes played in Individual Career Summaries
- Improve name sort for 3-part names like "Kevin D. Cox" and "T.J. Rogers"
- Allow maximum 6-characters for team code in Game Reports | Xml output parameters
- Add "Show list of NCAA team codes" to Game Reports | Xml output parameters -- to display list of NCAA codes
- Improve filter for "Team" player in career reports
- Accommodate display in career/historical reports for results when W-L-T is known, but final score is unknown
- On a defensive save, credit a team totals save (to uniform "TM") in addition to posting to individual player
- Add functions to show individual corners in Individual statistics, Game-by-Game report
- For Game reports, add goalie W-L record to box score, adjust column width for clock times over 100 minutes
- Add "All players" option to Special | Individual Game Highs report selection
- Add "teamid.CAP" output to Capture season stats function, to support in-game season-to-date goals input
- In Game Xml, add "shutout" and "sf" (shots faced) attributes to <goalie> tag, and "stadium" attribute to <venue> tag
- In Career reports, enforce minutes played for goalies in stats leaders report
- Suppress shots/shots on goal data columns if these statistics were not tracked in Career stats
- Save separate titles for men's, women's, field hockey venues in Career Reports

2009 (Version 1.11)

- Access to all updates from June 2009 through May 2010
- Live XML activation through July 2010

- Add controls for Conference HTML column header color
- Html output: Add handling for "special" characters in player names
- Various fixes and minor enhancements

2008 (Version 1.10)

- Access to all updates from June 2008 through May 2009 (i.e., versions 1.10.1 - 1.10.xx)
- Live XML activation through July 2009
- New style format season reports
- New style format career/historical reports
- Table-style format career HTML output
- Improve directory prompts for: import/export, pack/unpack, HTML to disk, backup/restore
- Capability to insert graphic images into the header area of hardcopy "style" reports
- Roster report added to "Season Reports" (features include sort by uni # or name, 'style' format and XML format)
- HTML generate: accommodate Vista to display HTML | View HTML functions
- Utilities: modify method for import roster to accommodate Vista (fix to avoid failure in copy of ".sro" file)

The Automated ScoreBook For Soccer/Field Hockey - What's New 2000-2011 – Page 3

- Game scoring: prompt for clock time at the end of the corner input sequence
- Season reports: add "Goal scored per game" entry to Team Statistics report (in addition to "Goals scored average" entry)
- Career reports: add support for penalty kicks/strokes made/attempted in summaries, season records and career records
- Season reports: implement automatic game-tying goals calculation (instead of relying on manual entry)
- Manual entry: automatically sort the Goal history list in chronological order after edit
- Live HTML: optionally display game info within sponsor text -- (add a line in the sponsor text file with the tag: <info/>)
- Various fixes and other minor enhancements

2007 (Version 1.9)

- Access to all updates from June 2007 through May 2008
- Live XML activation through July 2008
- New style game reports: boxscore, play by play
- Game Viewer - allow for "http" access to game, season, and career XML files via the internet
- Add "Season goal number" prompt on penalty kick goal
- Add "Shutouts" column to table-style season HTML output for goalies
- Use player uniform number in season HTML files/links for individual game-by-game outputs to allow for more predictable file names (for example, to create links from player bio pages)
- In field hockey mode credit game-winning goal to the player whose goal put the team ahead for good
- Add option to specify whether to show "Fouls" in the game box score
- Remember separate rules for each directory (to simplify switching between soccer and field hockey)
- Option to mark stats for a player from another team/school (to exclude from season & career leaders)
- Install updated NCAA team code list (ncaacode.rpi)
- Game Viewer - implement method to automatically resize viewer window at startup
- Various fixes and other minor enhancements

2006 (Version 1.8)

- Access to all updates from June 2006 through May 2007
- Live XML activation through July 2007
- New ôstylesheetö format for live HTML stats with TAS Live
- Career summary all-time, single-season rankings
- Career all-time records vs opponents
- Roster name format functions (upper,mixed,first,last)
- Import games list sort by date
- Show fouls in box score if "Show fouls" is enabled
- Show shootout results in box score if applicable
- Table-style format for post-game web pages
- Career category ordinal rankings (1., 2., etc.)
- Prompt team name spelling on roster import
- Include full goal description in box score
- Add goal description and clock time for subs to game XML
- Schedule/results shows "F" to indicate forfeited game
- Career categories for GWG and save pct
- Conference career change team id and delete team functions
- Various fixes and other minor enhancements

2005 (Version 1.7)

- Access to all updates from June 2005 through May 2006

The Automated ScoreBook For Soccer/Field Hockey - What's New 2000-2011 – Page 4

- Live XML activation through July 2006
